

ConnectWell Community Health

Speech & Language Program Adult Consultation

What is a Communication Consultation?

Communication consultation by the ConnectWell Speech and Language Program is a one time joint consultation visit with the client and referring service provider.

Consultation may look at:

- Strategies to promote speech and language development
- Visual supports for understanding and/or expression
- Participation in daily routines and activities
- Strategies to promote social skills with peers

Who can refer?

A service provider who is active in the care of an adult client in a community setting.

How to make a referral:

Fax the ConnectWell Speech and Language Program - Adult Referral Form to 613-257-2675 or send to kmillar@connectwell.ca

Who is it for?

Adults diagnosed with a Developmental Disability or Autism in a community setting, in Lanark County, who would benefit from communication support.

What to expect:

The Speech Language Pathologist will meet on location or virtually with the client and service providers to provide consultation on the area of concern. One main area of concern can be addressed in a consultation.

Following the consultation visit, the SLP will provide a consultation note outlining goals and strategies discussed.

Follow-up consultation can be provided upon request of the referring service provider.
